

Famous Dave's

"We were notified that our restaurant was on fire at 12:30 AM on January 29, 2008. The temperature was 20 degrees below zero, winds were 40 miles per hour, and Tony and his crew were at the restaurant at 5:00 AM advising us on the proper handling of this catastrophe. As a company, we had never experienced a fire of this magnitude, so they were an immense help in directing us early on. The interior demolition, clean up, and remodel were completed on a very quick time schedule, and all work was very professional. To say First Response did a great job is an understatement. I can highly recommend First Response."

Stephen R. Shaw, President
Mercedes Restaurants, Inc.
